

Lawn Edging Roll Kit

10m Plastic Edging Roll With 10 Fixing Pegs

A strong and durable lawn edging roll which has been manufactured from recycled plastic waste. Supplied with 10 colour matching recycled plastic pegs to install your edging, this easy to install product allows you to create crisp and secure separations between two or more landscaped areas. Available in black or brown, you can select the most appropriate colour for your upcoming project to create a complimentary or contrasting border around your lawn or flower bed. This unique edging system is an attractive and long lasting solution ideal for preventing crumbly edges around soil or grassed areas and material migration such as around gravel driveways or paths.

- » **Weight:** 3.84kg

APPLICATIONS

FLOWERBEDS

Our lawn edging rolls keep your soil, flowers and plants contained

GRASS

Our edging rolls are installed around grassed areas to prevent overgrowing

PATHS

Outline and confine pathways with the use of our lawn edging roll kits

DRIVEWAYS

Prevent gravel migration by installing lawn edging rolls around your drive

PATIOS

Lawn edging rolls used to separate patios from surrounding areas

SEPARATION

Keep landscaped areas segmented and prevent any material migration

Installation Instructions

1. Decide where you want to install your Lawn Edging Roll Kit. Once agreed, unroll your edging roll and if required cut to size. Our lawn edging rolls are strong and flexible which mean they can be installed on both straight and contoured areas.
2. Dig a small trench around your required area and lay the edging roll in to the trench. It is advised that you put at least a minimum of two-thirds of your edging roll in to the trench.
3. Once in place, attach your fixing pegs onto the top of your edging before pushing into the ground either in front or behind the edging depending on your preference. *(You can see the pegs in use, both in front and behind the edging in the images below)*
4. Repeat this process until you have secured all of your edging in place.
5. Finally, if required, backfill to the edging using soil, gravel, mulch or any other appropriate materials to ensure the edging is secured and sitting flush.

PRODUCT CODE	COLOUR	DESCRIPTION	DEPTH (mm)	DIMENSIONS (mm)	PACK SIZE	UNIT WEIGHT (kg)
2699	Black	Lawn Edging Roll Kit - 10m Black	3	10000 x 100	1	3.84
